

IESE 2.0: THE MAP OF KNOWLEDGE

Blogs, tweets, posts... It's never been so easy to keep up to the minute with what's going on at IESE, whether it's what the faculty thinks or is researching, alumni activities or news about your program. Now everything is online. There is no end of possibilities. It's up to you which line you take, and in which direction and how far you want to go.
